## *Desert of Future*

Tomorrow is the key...

Synthesis of modern and classical techniques shows an interaction of light and shadow, metal look with engraved structures. Principles of architecture serve as a foundation of shapes, styles and decors with omnipresent geometric lines especially in cut transparent colors. Glass mass contrasted with metal look of vacuum coatings is brought to life by a spectrum of iris decors. You will be enthralled by clean cut edges and surfaces with gray shades of chrome and antracit, hinted structures hidden under the metallic surface...

PRECIOSA

## *Nature Look*

### Back to nature!

You will find a harmony of fall landscape colors. Apricot shades will stand out in contrast to antique silver and tin. Sandstone tones compliment sharp shades of brick color, raw linen canvas and midnight silk blue. Terracota is elevated by the bluish light hue of all types of glass. Shallow soft shapes copy the perfection of natural structures with utmost sophistication and provide industrial products a human dimension.

## *Colors Reflection*

It is all about color

Amazing marriage of color shades that create pleasing, fresh palette. Royal violet took the central stage with lime green as a complement. Warm mauve, gray-green and pale orange underline the statement. Clean white and Paris blue serve as classical background neutrals. Decors are dominated by vacuum luster, iris, sprayed finishes, shiny mirror look and their bold combinations.

## *Simply Impeccable*

Indulge yourself in luxury and elegance!

Clean elegant shapes, faultless material finish, elaborate minimalistic combinations of colors, alternation of smooth and engraved surfaces. The foundation is perfect and well balanced processing of raw glass. Ice crystal with hard black counter-tones is softened by silver effects and pearlized look in both - light shades of sparkling wine and brown tones of walnuts.
