Glass Microbeads

Glass microbeads have a wide range of uses. Thanks to their optical properties, microbeads can be put to excellent use on Christmas decorations. Ornaments sprinkled with transparent microbeads sparkle beautifully when the Christmas tree is well lit. Delicate microbeads can also be used to excellently replace the classic filling in nostalgic hourglasses.

Lastly, microbeads are also ideally suited for hobby sets and the most diverse range of artistic creative work. Microbeads can also be used to achieve color surface finishes. The current offer consists of 29 colors, including three metallic finishes; silver, bronze and copper. Colored microbeads can be applied to transparent or opaque bases of various types. As such, they can be used in unconventional stained glass work, mandalas, to achieve the flocking effect or in decorations when painting on skin or modelling nails. You can also use microbeads in creative workshops. All you need is an idea and clever hands to realise it!

Microbeads BMX 40

(Mixture)

Size (µm)	Grain structure (%)
500 - 630	0 - 10
400 - 500	10 - 30
315 - 400	30 - 70
200 - 315	10 - 50
100 - 200	0 - 10
50 - 100	0 - 5

Technical parameters

specific weight	2.45 kg/dm ³
refractive index	1.50
hydrolytic class	IV

Packaging

Bags with a net weight of 0.5 kg.
minimum quantity to order is 1 kg

*Surface colored. Small deviation in colors is available.
Limited solvent and abrasion resistance.*
