

SAFETY DATA SHEET Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 GLASS PK FERTILISER 14-31 (0 – 2 mm)	Date of issue: 16.04.2025 Revision date: 27.8.2025 Page 1/ 8 Version no. 3
--	---

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1	Product identifier	
	Commercial name:	GLASS PK FERTILISER 14-31 (0 – 2 mm)
	Identification number:	none – mixture
	Registration number:	none – mixture
1.2	Relevant identified uses of the substance or mixture and uses advised against	
	<p>Relevant uses: This is a slow acting mineral fertiliser containing the following elements: P, K, Mg, Ca, S and trace elements (Na, Fe, Mn, Cu, Mo, Al and fluorides) that are slow acting. It is designated for fertilising soil and vegetative greenery. Fraction 0 – 2 mm: designated for 1 – 2 vegetative periods.</p> <p>Uses advised against: The mixture must only be used for its recommended use. Any uses that lead to the creation of airborne dust and during which it is not possible to appropriately protect individuals from said dust.</p>	
1.3	Details of the supplier of the safety data sheet	
	Supplier (manufacturer):	PRECIOSA ORNELA, a. s.
	Place of business or registered office:	Krkonošská 732 468 61 DESNÁ
	Telephone:	+420 739 520 326
	E-mail	vaclav.kulas2@preciosa.com
	Qualified individual:	Václav Kulas
1.4	Emergency telephone number	
	Toxicology Information Centre, Na Bojišti 1, Prague (non-stop) +420-224919293 +420-224915402 Information only for health risks – the acute poisoning of people and animals	

SECTION 2: Hazard identification

2.1	Classification of the substance or mixture	
	Classification of the substance or mixture:	The mixture has not been classified as hazardous.
	Classification as per CLP Regulation (EC) 1272/2008:	Not given
	Hazardous effects for health:	Unclassified
	Hazardous effects for the environment:	Unclassified
	Hazardous physical-chemical effects:	Unclassified
2.2	Label elements	
	Hazard warning symbol:	Not given
	Signal word:	Not given
	Standard hazard statements:	Not given
	Precautionary statements:	P102 Keep out of reach of children. P270 Do not eat, drink or smoke when using this product. P262 Do not get in eyes, on skin or on clothing. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IN THE CASE OF EYE CONTACT: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P303+P352 IN THE CASE OF SKIN CONTACT: Wash with plenty of soap and water.

SAFETY DATA SHEET Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006	Date of issue: 16.04.2025 Revision date: 27.8.2025
GLASS PK FERTILISER 14-31 (0 – 2 mm)	Page 2/ 8 Version no. 3

2.3	<p>Other hazards:</p> <p>The substance/mixture does not contain any compounds that are considered to be persistent, bioaccumulative or toxic (PBT) or very persistent and very bioaccumulative (vPvB) in concentrations of 0.1% or above.</p> <p>Ecological information: The substance/mixture does not contain any compounds that are considered to have properties that are considered to disrupt endocrine activity in line with Article 57(f) of REACH, Commission Deregulated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.</p> <p>Toxicological information: The substance/mixture does not contain any compounds that are considered to disrupt endocrine activity in line with Article 57(f) of REACH, Commission Deregulated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.</p>
------------	--

SECTION 3: Composition/information on ingredients

3.1 Substances

Ingredient identifier	CAS number EINECS Index Number	Concentration (% of mass.)	Classification as per 1272/2008
amorphous silicon dioxide	CAS: 7631-86-9 ES: 231-545-4		Unclassified

Contains:

total phosphorous as P2O5 (P)	14 % (6.2 %)
citrate soluble phosphorous as P2O5 (P)	4.2 % (1.8 %)
water soluble phosphorous as P2O5 (P)	2.3 % (1.0 %)
total potassium as K2O (K)	31 % (25.7 %)
water soluble potassium as K2O (K) 24% (19.9%)	24 % (19.9 %)
water non-soluble calcium as CaO	19 %
total magnesium as MgO	0.5 %
0-5 mm particles min. 95%	.95 %

The full wording of the H-sentences is set out in Section 16.

SECTION 4: First aid measures

4.1	<p>Description of first aid measures</p> <p>If you do not feel well after exposure or if any difficulties continue, seek immediate medical assistance or contact a clinical toxicological centre. Present this safety data sheet to the doctor for treatment.</p> <table border="1" style="width: 100%;"> <tr> <td style="width: 20%;">Inhalation:</td> <td>In the case of any continued irritation, seek medical assistance</td> </tr> <tr> <td>Skin contact:</td> <td>In the case of contact, rinse the affected area with a sufficient amount of soap and water. In the case of any difficulties, seek medical assistance.</td> </tr> <tr> <td>Eye contact:</td> <td>This may lead to mechanical irritation. Immediately rinse the affected area with a large amount of water, including under the eyelid for a period of at least 5 minutes.</td> </tr> <tr> <td>Ingestion:</td> <td>Ingestion is not anticipated. If it occurs: In the case of ingestion, immediately contact a clinical toxicology centre or seek medical assistance. Do not induce vomiting without a doctor's instructions to do so. Never administer anything to unconscious individuals by mouth.</td> </tr> </table>	Inhalation:	In the case of any continued irritation, seek medical assistance	Skin contact:	In the case of contact, rinse the affected area with a sufficient amount of soap and water. In the case of any difficulties, seek medical assistance.	Eye contact:	This may lead to mechanical irritation. Immediately rinse the affected area with a large amount of water, including under the eyelid for a period of at least 5 minutes.	Ingestion:	Ingestion is not anticipated. If it occurs: In the case of ingestion, immediately contact a clinical toxicology centre or seek medical assistance. Do not induce vomiting without a doctor's instructions to do so. Never administer anything to unconscious individuals by mouth.
Inhalation:	In the case of any continued irritation, seek medical assistance								
Skin contact:	In the case of contact, rinse the affected area with a sufficient amount of soap and water. In the case of any difficulties, seek medical assistance.								
Eye contact:	This may lead to mechanical irritation. Immediately rinse the affected area with a large amount of water, including under the eyelid for a period of at least 5 minutes.								
Ingestion:	Ingestion is not anticipated. If it occurs: In the case of ingestion, immediately contact a clinical toxicology centre or seek medical assistance. Do not induce vomiting without a doctor's instructions to do so. Never administer anything to unconscious individuals by mouth.								
4.2	<p>The most important acute and delayed symptoms and effects</p> <p>None given</p>								
4.3	<p>Instructions concerning immediate medical aid and special treatment</p> <p>None given</p>								

	SAFETY DATA SHEET Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006	Date of issue: 16.04.2025 Revision date: 27.8.2025
	GLASS PK FERTILISER 14-31 (0 – 2 mm)	Page 3/ 8 Version no. 3

SECTION 5: Firefighting measures

5.1	Extinguishing media	
	Suitable extinguishing media:	CO ₂ or extinguishing powder The mixture itself does not burn. Any firefighting measures must correspond to the surrounding conditions.
	Unsuitable extinguishing media:	Water, foam
5.2	Special hazards arising from the substance or the mixture Use a breathing apparatus and full protective equipment during a fire.	
5.3	Advice for firefighters Regular protective clothing for firefighters.	

SECTION 6: Accidental release measures

6.1	Personal precautions, protective equipment and emergency procedures	
	Personal protection measures: Use suitable personal protective equipment. Prevent contact with the eyes and skin. Prevent the product from becoming churned up.	
6.2	Environmental protection measures Prevent any leakage into water sources, including surface and ground water. None necessary, the product is a fertiliser.	
6.3	Methods and materials for containment and clean-up In the case of a leak, collect the product for further use where possible or apply it to the soil.	
6.4	References to other sections See Section 8 for personal protective equipment. See Section 13 for disposal instructions.	

SECTION 7: Handling and storage

7.1	Precautions for safe handling Do not inhale the dust. See Section 8 for personal protective equipment. Only use in places with a sufficient air extraction system.	
7.2	Conditions for safe storage, including any incompatibilities Store in the product closed and only in the original packaging. Store out of reach of children. Store separately from foodstuffs, beverages and animal feed. Storage conditions: Store in a dry and cool place. Period of use: 5 years from the production date when adhering to the storage conditions.	
7.3	Specific end uses(s) None given	

SECTION 8: Exposure controls/personal protection

8.1	Control parameters	
	Exposure limits according to Government Regulation no. 361/2007 Coll., as amended: amorphous silicon dioxide (amorphous SiO ₂) - PELc 4 mg.m ⁻³	
	<i>Derived no-effect level (DNEL) according to Regulation (EC) No. 1907/2006:</i> none given	
	<i>Predicted concentration where no adverse effects occur (PNEC) according to Regulation (EC) No. 1907/2006:</i> none given	

SAFETY DATA SHEET Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006	Date of issue: 16.04.2025 Revision date: 27.8.2025
GLASS PK FERTILISER 14-31 (0 – 2 mm)	Page 4/ 8 Version no. 3

8.2	Exposure controls Technical precautions: (when manufacturing fertiliser) Adhere to the usual occupational health protection precautions. Do not eat, drink or smoke when working. Thoroughly wash your hands with soap and water after work or before meal breaks. Ensure sufficient ventilation. Immediately remove any soiled clothing. Prevent any contact with the skin and eyes. No special precautions are required when applying the fertiliser								
	Individual protection measures								
	<table border="1" style="width: 100%;"> <tr> <td style="width: 30%;">Airway protection</td> <td>No personal airway protection is usually necessary.</td> </tr> <tr> <td>Eye protection:</td> <td>Use protective goggles during prolonged or repeated exposure</td> </tr> <tr> <td>Hand protection:</td> <td>Use protective work gloves</td> </tr> <tr> <td>Skin protection:</td> <td>Regular work clothing</td> </tr> </table>	Airway protection	No personal airway protection is usually necessary.	Eye protection:	Use protective goggles during prolonged or repeated exposure	Hand protection:	Use protective work gloves	Skin protection:	Regular work clothing
Airway protection	No personal airway protection is usually necessary.								
Eye protection:	Use protective goggles during prolonged or repeated exposure								
Hand protection:	Use protective work gloves								
Skin protection:	Regular work clothing								
	Environmental exposure controls Adherence to the handling and storage conditions, especially secure the premises against any uncontrolled leakage of the preparation into water, soil or sewers.								

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state:	Loose mixture
Colour:	None given
Odour:	Without odour
Odour threshold value:	There is no information available on this parameter
pH:	None given
Solidification point (°C):	700 °C
Initial boiling point and boiling range (°C):	Not stated
Flash point (°C):	Does not ignite
Evaporation rate	There is no information available on this parameter
Flammability:	It is not flammable
Explosive or flammability limit: upper limit (% vol.):	This information is irrelevant
lower limit (% vol.):	This information is irrelevant
Vapour pressure (20°C)	This information is irrelevant
Vapour density	This information is irrelevant
Density	2.55 g/cm ³
Relative density:	Not stated
Soluble in water	In water: partially soluble from 8 °C
Partition coefficient: n-octanol/water:	Not stated, a mixture of different ingredients
Ignition temperature:	There is no information available on this parameter
Autoignition:	Not stated, stable under normal operating conditions
Decomposition temperature:	Not stated, stable under normal operating conditions
Viscosity	This information is not relevant
Explosive properties:	It is not explosive
Oxidising properties:	Not classified as oxidising
Particle size:	Size 0–5 mm

9.2 Other information

Not stated

SECTION 10: Stability and reactivity

10.1 Reactivity

Stable when used according to the specifications

10.2 Chemical stability

The mixture is stable under normal conditions in the surrounding environment and during storage and handling under the anticipated thermal and pressure conditions.

	SAFETY DATA SHEET Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 GLASS PK FERTILISER 14-31 (0 – 2 mm)	Date of issue: 16.04.2025 Revision date: 27.8.2025 Page 5/ 8 Version no. 3
--	--	---

10.3	Possibility of hazardous reactions No dangerous reactions are known
10.4	Conditions to avoid Protect against the elements, especially wind. Dust creation.
10.5	Incompatible materials There is no information available on this parameter
10.6	Hazardous decomposition products No such decomposition products are known.

SECTION 11: Toxicological information

11.1	Information on hazard classes as defined in Regulation (EC) No 1272/2008
	a) Acute toxicity The criteria for classification have not been met on the basis of the available information.
	b) Skin corrosion irritation The criteria for classification have not been met on the basis of the available information.
	c) Serious eye damage/irritation The criteria for classification have not been met on the basis of the available information.
	d) Respiratory or skin sensitisation The criteria for classification have not been met on the basis of the available information.
	e) Germ cell mutagenicity The criteria for classification have not been met on the basis of the available information.
	f) Carcogenicity The criteria for classification have not been met on the basis of the available information.
	g) Reproductive toxicity The criteria for classification have not been met on the basis of the available information.
	h) Specific target organ toxicity – single exposure It may lead to irritation of the airways.
	i) Specific organ toxicity – repeated exposure The criteria for classification have not been met on the basis of the available information.
	j) Aspiration hazard The criteria for classification have not been met on the basis of the available information.

11.2. Information on other hazards

11.2.1. Properties causing disruption to the endocrine system

The mixture does not contain any substances included on the list compiled in compliance with Article 59, paragraph 1 of the REACH regulation due to properties that disrupt the endocrine system and has not been identified as a substance that disrupts the endocrine system in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605

SECTION 12: Ecological Information

12.1	Toxicity The criteria for classification have not been met on the basis of the available information.
12.2	Persistence and degradability There is no information available on this parameter.
12.3	Bioaccumulative potential There is no information available on this parameter.
12.4	Mobility in soil There is no information available on this parameter.
12.5	Results of PBT and vPvB assessment The mixture has not been assessed as being PBT or vPvB.

	SAFETY DATA SHEET Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006	Date of issue: 16.04.2025 Revision date: 27.8.2025
	GLASS PK FERTILISER 14-31 (0 – 2 mm)	Page 6/ 8 Version no. 3

12.6	Properties causing disruption to the endocrine system The mixture does not contain any substances included on the list compiled in compliance with Article 59, paragraph 1 of the REACH regulation due to properties that disrupt the endocrine system and has not been identified as a substance that disrupts the endocrine system in accordance with the criteria set out Commission Deregulated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605
12.7	Other unfavourable effects None are known.

SECTION 13: Disposal considerations

13.1	Waste treatment methods
	a) Suitable methods for disposing of the substance or preparation and any contaminated packing material: Do not dispose of any remnants by throwing them in the sewer. Apply any unused remnants to the soil. Dispose in line with the European Waste Framework Directive: Contaminated packing material The empty packing material should be transferred to a company with authorisation to handle waste for recycling or disposal
	b) Physical/chemical properties that could influence the waste disposal method None given.
	c) Prevention of waste disposal using the sewer None given.
	d) Special safety precautions for recommended waste treatment None given. Legal regulations about waste: Act no. 541/2020 Coll.

SECTION 14: Transport information

In compliance with ADR / IMDG / IATA / ADN / RID

Not a hazardous product for transportation

ADR	IMDG	IATA	ADN	RID
14.1. UN number or ID number				
-	-	-	-	
14.2. UN proper shipping name				
-	-	-	-	-
Description of the shipping document				
-	-	--	-	-
14.3. Transport hazard classes(es)				
-	-	-	-	-
14.4. packaging group				
-	-	-	-	-
