White Lining

PRECIOSA

PRECIOSA *White Lining*

We present the PRECIOSA White Lining product range of transparent rocailles with a white lining.

The white lining in the seed bead holes highlights the color of the transparent glass.

Mix and match the seed beads according to your own designs and you will be surprised at the results you achieve.

Not only designs in tones of green or blue are engaging, but sequences of individual colors are also very attractive.

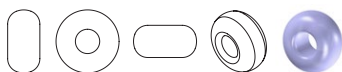

We offer a full range of 26 suitable transparent rocaille colors in the best-selling 10/0 size.

Seed beads with the PRECIOSA White Lining can also be manufactured in the 11/0, 8/0 and 6/0 sizes.
