

Step 6:  
Cut off about 8 cm of adjusting chain.  
Thread a ring through the R-eye and string  
both chain links onto it. Close it.

Step 7:  
String a ring onto the 2<sup>nd</sup> R-eye and close  
it. String a carabiner onto another ring and  
add the already closed ring. Close it.

- 4 mm or 5 mm rings; a carabiner;  
an adjusting chain

- a 0.20 mm nylon line; a thin needle;  
scissors

**Difficulty:** ●●●●●

**Technique:** stringing

## Procedure:

The bracelet is 17,5 cm long (the sewn section is 16 cm).

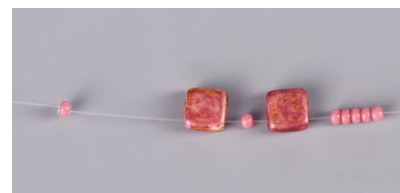

### Step 1:

Cut off about 80 cm of line. Thread the line through 1x R twice or tie it off at one end of the line in order to secure the stringing. Thread the second end through the eye of the needle.

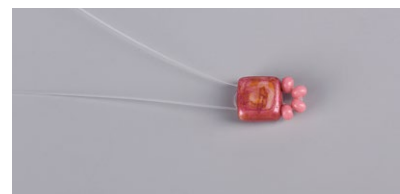

### Step 2:

String 1x S, 1x R, 1x S and 5x R. String this grouping a total of 8x. All of the S must face in the same direction. The red line.

### Step 3:

String 1x S and 4x R. Also thread the line through the second hole of the S. Thread the line through the 1st hole of the S and R and the 2nd hole again. The yellow line. Create a 10 cm gap in the stringing from Step 2.

### Step 4:

String 1x R, the 2nd hole of the S, 5x R and the 2nd hole of the next S. Also string this grouping 8x. The green line. Maintain the 10 cm gap when sewing with the line in the stringing from Step 2.

### Step 5:

Add an eye made of 4x R next to the end S. Thread the line through both holes of the S and R one more time similarly to in Step 3. The yellow line. Tie off both ends with two knots. Pull the knots into the R and S.
