- 6 mm rings; a carabiner

- a 0.20 mm nylon line; a thin needle;
scissors; flat-nosed pliers
(handling the rings)

Difficulty: 

Technique: simple sewing, square stitch

Procedure:

Step 1:
String 6x RO1. Thread the line through them one more time. Tie it off.

Step 2:
Thread the line through the RO1.
String 1x R10, 1x RO2 and 1x R10.
Thread the line through the RO1
one more time in the same direction.

Step 3:
Repeat Step 2 five more times. The R10
are shared by the neighbouring RO2.

Step 4:
Thread the line through the R10.
Thread the line through the RO2 and string
2x R10 between them. Complete the circle
with a connection at the RO2.
If you only want a small target, thread
the line through the circle of RO2 and R10
one more time. Sew the line in.
Create a loop in the line between an RO2
and an R10. Thread the line through it 2x.
Tighten it. Thread the line through part
of the RO2 and R10 one more time.
Create one more knot. Thread the line
through part of the stringing and cut
off the line.

Step 5:
String 1x RO3 above the threaded RO2.
Thread the line through the RO2 again
in the same direction.

Step 6:
Repeat Step 5 five more times.

Step 7:
Thread the line through the RO3.
String 1x R8, 1x R10 and 1x R8 into the gaps
between them. Thread the line through
the circle of RO3, R8 and R10 one more
time. Sew the line in.

Step 8:
Thread a semi-opened ring under a rocaille.
Close it. Attach another ring to the circle.
Add the eye of the carabiner.
Close the ring.
