

The ring

Steps 7 - 9 - are the same as Steps 1 - 3 for the earrings.

Step 10:
Sew another 2 R to each of the R on the other edge of the circle.
Sew in the line.

Step 11:
Glue the „prickles“ to the base of the ring.

- a fine chain (10 links- 2 cm); a 12 - 14 mm eye pin; earring hooks; a ring with a 12 mm base

- a 0.20 mm nylon line; a thin needle; scissors; glue for non-absorbent materials

Difficulty: ●●●●●

Technique: the right angle weave stitch, simple sewing

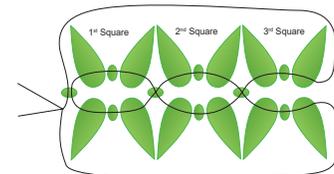

Procedure:

The earrings

Step 1:
Alternately string 8x PB and 7x R.
Start with the PB.

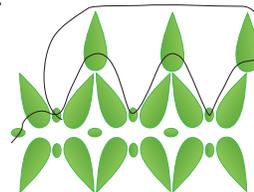

Step 2:
Create a ring out of three „squares“ of PB and R. Thread the line through the 4th R. This will create the 1st „square“. String 1x PB, 1x R and 1x PB. Create the 2nd „square“. String 1x PB, 1x R and 1x PB. Thread the line through the side R from the 1st „Square“. Tie off the line.

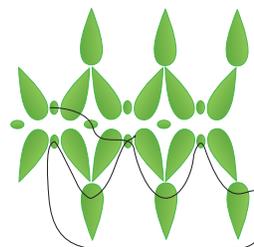

Grasp the protruding section of the wire between the points of the needle-nose pliers. Twist it around the points of the pliers. String the end of the chain onto the end of the chain prior to closing the eye. Attach an earring hook to the other end of the chain.

Step 3:
Thread the line through the nearest PB and R behind the knot. String 1x PB. Thread the line through the R between PB. String 1x PB. Thread the line through the R between the PB (be careful, as it has already been threaded through multiple times).

Step 4:
Thread the line through the PB and R at the other edge of the circle. Add a further 3x PB as in Step 3.

Step 5:
Cut off the necessary length of the chain. Put an FPB onto an eye pin.

Step 6:
Place the hung FPB in the hollow of the earring between 3x PB from the 4th step. You can sew through the PB and R one more time. Sew in the line.
