

Step 11:
Add **R** and thread the line through the already strung **R** in the direction towards the lower loop of the second **FPB** from the middle. Add the **R** loop.

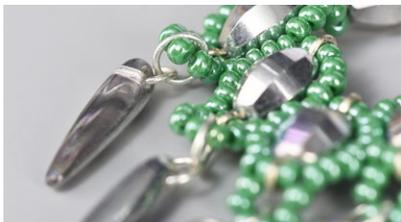

Step 12:
Add **R** and thread the line through the already strung **R** in the direction towards the upper loop of the central **FPB**. Pull off the securing **R**. Tie the line and pull it into the **R**. Cut it off.

Step 13:
Adjust the width of the upper hanger. Slightly open the eyes and hang them onto the sewn section. Add an earring hook.

Step 14:
Hang 1x **Th** to each of the bottom **R** loops using two rings.

- 18 mm and 30 mm eye pins; thin 5 mm rings; earring hooks

- a 0.20 mm nylon line; a thin needle; scissors; needle-nose pliers; flat-nose pliers

Difficulty: 

Technique: sewing, eye pin linking

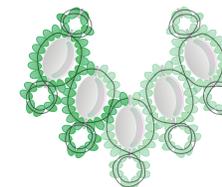

Procedure:

Link an FPB and a hanger onto an eye pin. Then connect them with the R. 18x R are strung around the FPB. The lower loop consists of 8x R and the upper of 6x R. Follow the illustrations. The shaping of the sewn section will begin when connecting the strung R.

Step 1:
Link 10x FPB onto eye pins.
Twist both ends in the same way.

Step 2:
Link a hanger.
String 1x FPB and 1x R onto an eye pin. Bend the eye pin. Additionally string 1x R and 1x FPB. Twist both eyes perpendicularly to your workbench.

Step 7:
Add R and thread the line through the already strung R in the direction towards the lower loop of the middle FPB. Add the R loop.

Step 8:
String the R in the direction towards the top loop of the second FPB from the middle.

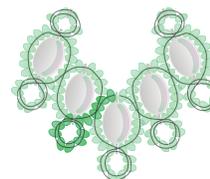

Step 9:
String the R in the direction towards the lower loop of the outer FPB. Add the R loop.

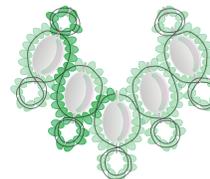

Step 10:
String the side of the outer FPB towards the upper loop. Add the R loop.

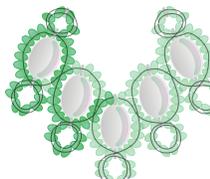

Step 3:
Secure the line about 10 cm from the beginning by threading it through an R. Start the stringing at the upper loop of the central FPB. String the section in the direction of the lower loop of the second FPB from the middle. Add the R loop.

Step 4:
Continue stringing the section towards the top loop of the outer FPB. Add the R loop.

Step 5:
String the side of the outer FPB in the direction towards the lower loop. Add the R loop.

Step 6:
Add R and thread the line through the already strung R in the direction towards the top FPB loop that is second from the centre.
