SEED BEAD GLASSES CORD

Glasses cord

PRECIOSA

Glasses cord

This practical fashion accessory is not only suitable for prescription glasses, but also for sunglasses. You can create a cord of PRECIOSA PermaLux seed beads for your glasses using this simple tutorial and in doing so acquire a refreshing decorative accessory that you can match with your outfit. Select fresh colors from the PRECIOSA PermaLux seed bead collection - there is something there for everyone!

Materials and tools:

PRECIOSA Rocailles (R10)
331 19 001; 10/0; a mix of colors

- costume jewelry wire (65 cm);
2x crimp beads;
2x 4 mm connecting rings;
2x rubber ends for attaching
the cord to the glasses;
snipping pliers; flat-nose pliers

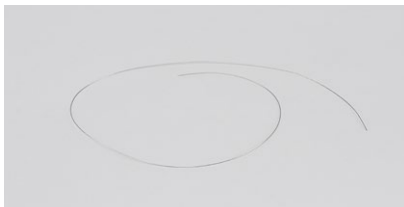

Difficulty: ● ● ● ● ●

Technique: stringing

Procedure:

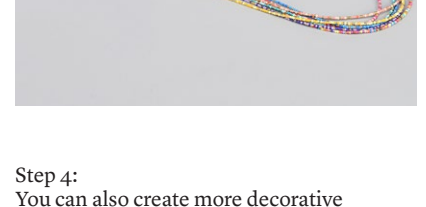

Step 1:
Measure the required length of wire
(65 cm) and cut it off using the snipping
pliers. Create a loop at one end using
a crimp bead.

Step 2:
String the seed bead mix onto the free end:
fill up the entire piece of wire,
but leave the last 1 cm empty.
Use a crimp bead to create a second loop.

Step 3:
Attach the rubber ends that attach
to the glasses using a connecting ring.

Step 4:
You can also create more decorative
variants by adding seed bead stringings
with a wide variety of beads.
