Difficulty: ●●●●●

Technique: stringing

## Procedure:

Step 1:  
Prepare 2 pieces of nylon line with a minimum length of 1.5 m and fold them in half.

Step 2:  
String 1x C1 into the middle of each piece of line (line no. 1 and line no. 2).

Step 3:  
String 2x C2 onto line no. 1.

Step 4:  
Connect line no. 1 with line no. 2 by threading line no. 2 through the second holes of the larger C2 on line no. 1.

Step 5:  
String the product onto a steel wire and continue with the smaller C1s on line no. 1 and line no. 2.

Step 6:  
String 2x C2 onto line no. 1 and connect them with line no. 2. Continue in this way until the required length has been achieved and tie a double knot at the end.
