15 mm eye pins; 5 or 6 mm rings; hangers with an odd number of links (for example: 2.8 cm wide and 7 links); a carabiner; an adjusting chain

a 0.20 mm nylon line; a thin needle; scissors; round-nosed pliers; flat-nosed pliers

Difficulty:

Procedure:

Step 1:

The 1st row consists of four circles of 6x R interspersed with 4x B. String the first half (the red line). Add the second half and sew through it (the blue line).

Step 2:

The 2nd row consists of „triangles“ of 3x B interspersed with 1x R and connected to the 1st row. String the first half (the red line). Add the second half and sew through it (the blue line).

Step 3:

First create a circle of 6x R in the 3rd row. Then continue using the procedure for the 1st row.

Step 4:

Alternate the procedure as in the 2nd and 3rd rows.

Step 5:

The complete 1st row is repeated 17x and the 2nd row is repeated 16x in one half of the necklace.

Step 6:

Both halves have a common outer circle made of R in the „V“ of the necklace.

Step 7:

First sew the point on one half. The rows will gradually shorten.

Step 8:

Sew the point on the second half and then sew it to the first half. The outer B and R are common to both halves.

Step 9:

Use the rings to attach the hangers to the ends.

Step 10:

Attach the carabiner and the 20 cm adjusting chain to the hangers.

Step 11:

Link 39x P. You will need 8-10 mm of free wire to create each loop. Twist the end of the wire around the point of the round-nose pliers. Straighten the loop above the centre of the hole of the P.

Step 12:

Attach the P to the lower circles of rocaillies using a metal ring.

The method for sewing the necklace may also inspire you to create earrings, a handbag or a hem for a dress.
