Glistening wreath

How can you quickly and easily decorate an interior? Try making a wreath which plays with the glints of light falling on the bead facets. Choose from the infinite range of PRECIOSA Fire Polished Beads based on the size, cut type or shape. Last but not least, you can also choose the shade and the finish.

Materials and tools:

PRECIOSA Fire Polished Beads
151 19 902; 14 mm;
00030/22500 honey; about 40x (FPB1)

151 19 201; 10 mm;
00030/22500 honey; about 55x (FPB2)

151 29 001; 13 x 10 mm;
00030/22500 honey; about 45x (FPB3)

151 69 801; 10 mm;
00030/22500 honey; about 60x (FPB4)

a hoop with a 15 cm diameter (a dreamcatcher);
0.80 mm binding wire snipping pliers; flat nose
pliers (tightening and modifying the binding
wire)

decorations (ribbons, cords, candles...)

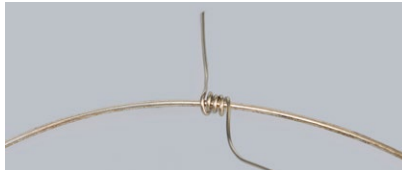

Difficulty: ●●●●●

Procedure:

Step 1:
Snip off about 1 m of binding wire.

Step 2:
Twist one end of the wire about 3x around
the hoop. Let the short end stick out.

Step 3:
Gradually string the FPB1.
Gradually wind the stringing.
There are seven winds around the hoop.

Step 4:
Twist the second end of the wire.
Place it behind the twist of the first end.
It is good, if the FPB1 slightly overlap.
This hides the ends of the wires better.

Step 5:
Snip off the protruding wire ends.
Press the twists together.

Step 6:
Continue with the FPB2. Make a twist near
the first wire. Repeat steps 2-5.

Step 7:
Continue with the FPB3. Make a twist near
the previous wires. Repeat steps 2-5.

Step 8:
Continue with the FPB4. Make a twist near
the previous wires. Repeat steps 2-5.

Step 9:
Decorate the wreath. You can concentrate
on the place where the wires end.
Hide the twists.
