SEWN EARRINGS MADE FROM PRECIOSA CANDY OVAL

Dark *romance*

PRECIOSA

Dark romance

We have prepared the following project for luxurious black earrings as an example of how to use PRECIOSA Candy Oval beads. We have expanded our range of pressed two-hole beads. We now offer PRECIOSA Candy Oval, a bead with an oval shape and with a distinctly rounded face and an almost flat rear. The holes pass through the shorter dimension of the bead. The beads are available in three sizes, specifically 4 x 6 mm, 6 x 8 mm and 10 x 12 mm.

Materials and tools:

PRECIOSA Candy Oval
111 01 388; 10 x 12 mm; 23980; 8x (**C1**)

111 01 388; 6 x 8 mm; 23980; 12x (**C2**)

PRECIOSA Thorn™ (**Th**)
111 01 340; 5 x 16 mm; 23980; 2x

PRECIOSA Cut Rocailles - Charlotte beads (**Ch**)
361 11 001; 13/0; 49102; 136x

4 mm rings; thin 5 mm rings; earring hooks

a 0.20 mm nylon line; a regular 0.30 mm wire; scissors; snipping pliers; flat nose pliers (tightening the wire, handling the rings)

Difficulty: ●●●○○

Procedure:

Step 1:
Alternately string 4x **C1** and 4x **Ch** onto the line. Keep an eye on the way the **C1** are turned (the face and the rear of the beads). Thread the line through them one more time. Tie it off. Thread the end of the line through the same hole in the **C1**.

Step 2:
String 2 lots of 10x **Ch** and 2 lots of 2x **C2** onto the wire into the gaps between the empty holes of the **C1**. Keep an eye on the way the **C2** are turned. Tie two knots next to the **C1** and **Ch**. Thread the ends of the wire through the same hole in the **C1**. Also try to hide the knot.

Step 3:
Create the top of the earrings. Thread the line through the lower, already threaded hole in the **C2**. String 3x **Ch**. Thread the line through the empty upper hole of the **C2**. Add 1x **C2**. String 4x **Ch**. Thread the line through the top hole of the **C2**. String 10x **Ch**. Thread the line through the top hole one more time.

String 4x **Ch**. Thread the line through the lower hole of the **C2**. Thread the line through the upper hole of the adjacent **C2**. String 3x **Ch**. Thread the line through the lower hole of the **C2**. Tie off the wire. Thread the ends of the wire to the left and the right.

Step 4:
Also repeat Step 3 on the opposite side of the earring.

Step 5:
Hang 1x **Th** from the loop of **Ch** using a thin ring and a 4 mm ring.

Step 6:
Hang the entire earring on an earring hook.

Step 7:
Make the second earring.
