SIMPLE ACCESSORY USING THE PRECIOSA CORNELIAN STAR

Mosaic *heart*

Mosaic heart

Preciosa Ornela presents a new type of rocaïlle which combines two types of glass, the PRECIOSA Cornelian Star. The PRECIOSA Cornelian is a rocaïlle with a round hole, an intermediate layer of white chalk with a round edge and an overlay of transparent glass which comes in in purple, black, blue, green, turquoise, yellow, orange and red.

The PRECIOSA Cornelian Star is a new type of cornelian, this time with an intermediary layer in the shape of a six-pointed star. The points of the white core shine through the transparent overlay and their shadows create the impression of fine lines. The PRECIOSA Cornelian Star can be produced in a range of sizes from 8/0 to 34. The interesting effect of the surface shading especially occurs in the larger sizes. Use red PRECIOSA Cornelian Stars to create a simple gift for someone you love on Valentine's Day.

Materials and tools:

PRECIOSA Cornelian Stars
311 69 001; 7/0;
93730 red; 50 - 60x (KH7)

311 69 001; 31/0;
93730 red; 4x (KH31)

PRECIOSA Rocailles (R11)
331 19 001; 10/0;
97070 ruby; about 20x

- a metal frame in the shape of a heart with a raised edge (for example, a pendant, a ring or earrings); rings; a carabiner; a counter-ring; a chain

- glue for non-absorbent materials, slow drying, preferably transparent; a pointed skewer (for applying the glue); a large tailor's needle (used to place the seed beads); a thin red ribbon

Difficulty: ● ● ● ● ●

Technique: gluing

Procedure:

Step 1
Apply the glue to the frame in a thick layer. Clean the top of the raised edge (fig. no. 1).

Step 2
Slowly and carefully arrange the KH7 in the frame, piece by piece. Start along the raised edge (fig. no. 2). Then fill in the centre of the heart. Use the large tailor's needle to assist with this. You can insert the point of the needle into the hole of the KH7 and use it to move the bead.

Step 3
Once the frame has been filled with KH7, small gaps will remain between them (fig. no. 3a). Place the R11 into them - you can also use a smaller size (fig. no. 3b).

Step 4
Leave the glue to dry according to the manufacturer's instructions.

Step 5
The ring and the earrings are finished (fig. no. 5a). Hang the pendant on a carabiner using the rings (fig. nos. 5b, 5c). Now you can use it as a key ring (fig. no. 5d) or to decorate a gift.
You can additionally decorate it with a ribbon. Cut off about 30 cm of ribbon. Thread it through the rings next to the carabiner. Fold it in half (fig. no. 5e). Tie a knot under the ring (fig. no. 5f). Thread 2x KH31 onto each free end of the ribbon. Tie a knot at the ends and cut off the ribbon (fig. no. 5g).
Otherwise, you can hang the pendant on a chain using a ring. Also connect a carabiner and a counter-ring on the end of the chain using the rings.
