A FLOWER MADE FROM TWIN

Twin, a new two-hole seed bead from the PRECIOSA Traditional Czech Beads brand, offers much more creativity and options during creative work with Czech seed beads. Try using it and create a simple pendant in the form of a flower. The following is a manual for the production of a simple, but effective decoration. The flat flower made using the new Twin seed beads can decorate any mobile phone, handbag or key ring or it can be used as a pair of cheerful earrings, as part of a necklace or as a semi-product for other more complicated costume jewellery products. We hope you enjoy your beadwork with Twin :o)

Materials and Tools:

Seed beads from the PRECIOSA Traditional Czech Beads brand:

 Twin 321 96 001; 2.5 x 5 mm

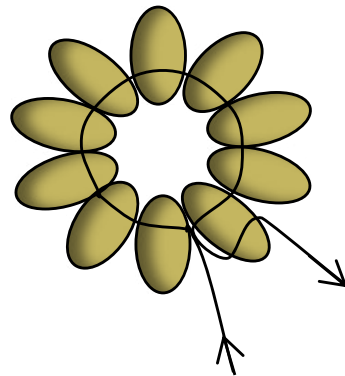

a 0.25 mm line, flat nosed pliers, scissors, a mobile cord

The Procedure:

Step 1:
String 10x new Twin seed beads onto a line which is about 12 cm long. Slide the strung seed beads to one end of the line and join them into a circle with a double knot on the line. Pass the shorter end of the line through the nearest hole of a Twin and pull the knot into the hole so that it is not visible. Pass the long end of the line through one of the nearest free holes of a Twin seed bead.

1.

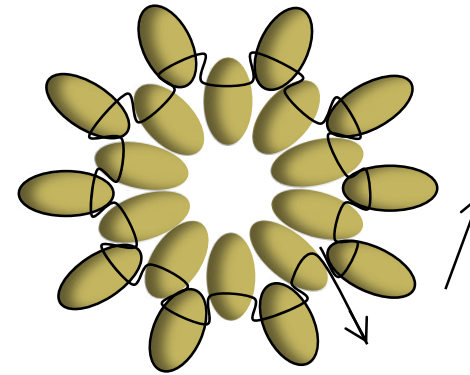

Step 2:
In the second row, string a Twin seed bead onto the line and then pass the line through the nearest free hole of a Twin seed bead from the initial ring. Continue in this way a total of ten times in this row. End this row with a firm knot and pull the free end through the nearest hole of a Twin and try to hide the knot in the nearest hole of a Twin. Cut off the remainder of the line. The Twin flower is finished.

2.

Step 3:
Take the flat nosed pliers and slightly open the ring on the mobile cord, string one of the free Twin holes onto it and then close the ring again using the pliers.
