

Step 14:
Complete the earring. String 2x C and create the top triangle. Sew the line in.

Step 15:
Link a PB. The eye pin should be about 8 mm longer than the PB. Twist the protruding wire around the point of the pliers. Hang it on the top triangle using a 4 mm ring. Hang the loop of the earring hook on the opposite top triangle.

Step 16:
Sew the second earring.

THE LANTERN EARRINGS

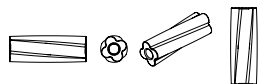

This three-dimensional earring is sewn from three flat earrings. The outer C and R are common for the neighbouring flat earring. Do not thread the line through the C twice in the first step. Hang the earring hooks and the linked pears behind the top C using the 6 mm rings.

The cross-section of the PRECIOSA Corolla Super-Twisted seed bead is shaped like a four-petaled flower. The dimples between the individual petals are colored and at the same time they rotate along the length of the seed bead. They therefore enable the excellent coloring of the used crystal glass and they highlight its sheen.

Difficulty: 

THE FLAT EARRINGS

Step 1:
Cut off about 1 m of line. String 3x C.
Thread the line through them one more time.
Tie it off.

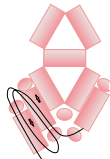

Step 2:
String 2x C. Thread the line through them one more time. Create the 1st row at the point of the strung C.

Step 3:
Add the 2nd row of C and surrounding R.

Step 4:
Add 2x R between the C in the 2nd row.
Add 1x C and 1x R from the 3rd row.

Step 5:
Add 3x R between the C in the 3rd row.
Add 1x C and 1x R from the 3rd row.

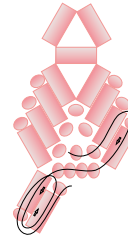

Step 6:
Add 1x C and 1x R from the 3rd row.

Step 7:
Add 4x R between the C in the 4th row.
Add 1x C and 1x R from the 4th row.

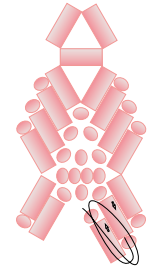

Step 8:
Start the second half. String 2x C and 2x R from the 5th and 6th rows.

Step 9:
Add 3x R between the 6th row. Add 2x C and 1x R from the 5th and 6th rows.

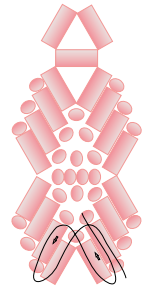

Step 10:
String 1x C and 2x R from the 7th row.

Step 11:
String 2x R and 1x C from the 7th row.

Step 12:
String 2x C and 3x R from the 8th row.

Step 13:
