

Step 9:
Completion. Adjust the length.
Place a carabiner on one end using a ring.
Cut off about 7 cm of adjusting chain.
Add a PB on one end. Attach the second
end to the necklace using a ring.

THE EARRINGS

You need two ladders consisting of 8x linked pins (Steps 3-5). Cut 4 lengths of chain at about 12-15 mm. Hang them in the empty loops of the ladders. Connect the top links of the chains with a ring and add an earring hook.

TRADITIONAL
CZECH BEADS

LINKED SET MADE FROM PRECIOSA OBLONGS

Ladder

Design by Helena Chmelíková

PRECIOSA Oblongs

321 61 001; 5 x 3,5 mm

PRECIOSA Rocailles

331 19 001; 10/0; 8/0

*PRECIOSA ORNELA introduces beads and seed beads
from the PRECIOSA Traditional Czech Beads™ brand.*

Ladder

This tutorial provides a suggestion on how to use one of the less familiar seed bead shapes, PRECIOSA Oblongs. The beads are connected using the lesser known linking technique. Prepare the „crosspieces“ and thread another eye pin through the side wire loops. You can also use this simple connection principle with other types of beads and seed beads from the PRECIOSA Traditional Czech Beads™ product range.

Materials and tools:

PRECIOSA Oblongs (O)

321 61 001; 5 x 3,5;
67010 turquoise;
the necklace: 56x; the earrings: 32x

PRECIOSA Rocailles

331 19 001; 10/0;
18503 silver;
the necklace: 56x; earrings: 32x (R1)

331 19 001; 8/0;
18503 silver;

the necklace: 46x; the earrings: 28x (R2)

PRECIOSA Pressed Beads (PB)

111 19 001; 4 mm;
02010/14464 blue;
the necklace: 11x; the earrings: 4x

- silver; 20 mm, 24 mm and 30 mm eye pins;
12 mm eye pins; a fine chain with links made
of thin wire; an adjusting chain; 4 mm rings;
a carabiner, earring hooks

- needle nose pliers (with rounded points);
snipping pliers; flat nose pliers (for handling
the rings and the eye pins loops); a ruler

Difficulty: 

Procedure:

Step 1:

Link **O** and **R1** on 24 mm eye pins. String 1x **O**,
2x **R1** and 1x **O**. Grip the end of the protruding
wire between the points and twist it.
This will form a loop. Leave the loop in the point
of the pliers and gently bend it behind the edge
of the **O** hole. It will be centrally located above
the hole. Straighten both loops to the same level
and twist them in the same way. Link 44x eye
pins in this fashion (28x for the necklace and
16x for the earrings).

Step 2:

Link 15x **PB** onto a 12 mm pin
(11x for the necklace, 4x for the earrings).

THE NECKLACE

Step 3:

Create a ladder from 8 linked pins.
Alternately string the eye of a pin and 1x **R2** onto
a 30 mm eye pin (a total of 7x **R2**).
Straighten all the **O** so they lie flat with
the wide surfaces on one another. Shorten any
protruding wire to about 8 mm. Make a loop.

Step 4:

Thread the second side of the ladder.
Once again add a total of 7x **R2**.
Shorten the wire and make a loop.

Step 5:

Open the loop next to 2x **PB** and hang them in
the loops on both sides of the ladder.

Step 6:

Create two ladders out of 6 linked pins.
Thread the loops on both sides. Add a total
of 5x **R2** between them. Link the loops.
Add the **PB**.

Step 7:

Create two ladders made of 4 linked pins.
Thread the loops on both sides. Add a total
of 3x **R2** between them. Link the loops.
Add **PB**.

Step 8:

Cut off 40 cm of chain.
Suspend the ladders. Open the empty loops
by the largest ladder. Hang the chain in
the loops. Close them again.
Suspend the smaller ladders at the same
distance from the central one.
