

Step 14:
Thread 6 mm rings through the gaps between the K on the upper edge of the top part of the earrings. Connect the rings with another ring and add an earring hook.

Step 15:
Create the second earring.

SEWN EARRINGS MADE WITH PRECIOSA KARO™ PENDANTS

Haydée

PRECIOSA

Haydée

We are presenting the new PRECIOSA Karo™ seed bead in the month of June. This involves a flat, almost square and, mainly, two-hole seed bead, which enables it to be used in a wide variety of settings. You can use the „peyote“ stitch in combination with PRECIOSA Rocailles to sew and arrange the seed beads in a circle. Create circular sectors based on an oriental theme and hung with unique shapes on their edges. Then you can flaunt your Haydée earrings to all around you.

Materials and tools:

PRECIOSA Karo™ (K)
321 94 001; 5 x 5 mm;
59155 green iris; 46x per pair

PRECIOSA Rocailles (R)
331 19 001; 10/0;
19155 green iris; 136x per pair

PRECIOSA Thorn™ (T)
111 01 340; 5 x 16 mm;
53420 khaki; 6x per pair

PRECIOSA Fire Polished Bead (FPB)
151 19 001; 4 mm;
23980/21455 green iris; 2x per pair

- brass - 5 and 6 mm rings; ca12 mm tubes;
14 mm eye pins or pins which are 1 cm longer
than the tubes; earring hooks

- a thin needle; a 0.20 mm nylon line; scissors;
needle nose pliers; flat nose pliers (handling
the rings)

Difficulty: ■■■■■

Procedure:

Step 1:
Select K which are similar to one another.

Step 2:
String 3x K and 1x R. Thread the line through
the second hole of the outer K. String 1x R
between the K. String 1x R, 1x K and 1x R.
Thread the line through the second hole
of the R. Tie off the line.

Step 3:
Thread the line through the lower hole
of the K and R. Sew on 1x K under each K using
the „square“ stitch.

Step 4:
Thread the line through the top hole of the K
and string 2x R between each of them.
String 1x R and thread the line through
the lower hole of the K.

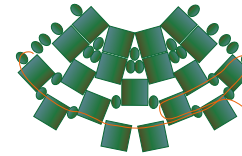

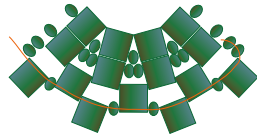

Step 5:
String 1x K between each of the K.
Thread the line through the lower hole
of the outer K. String 1x R. Thread the line
through both the holes of the outer K.

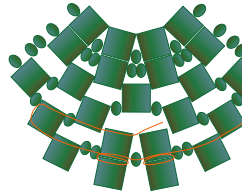

Step 6:
Add R and K in front of the K and between
the K. First string 2x R, 1x K and 1x R. String 1x
K and 1x R in the gap. Then string 1x R and 1x
K in the second gap. String 1x R, 1x K and 1x R
at the edge. Thread the line through the K from
Steps 4 and 5 and the R and K from Step 6.

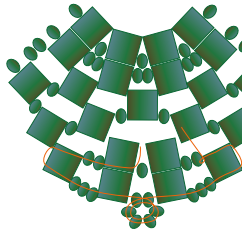

Step 7:
String 1x R. Thread the line through the second
hole of the K. String 1x R, 1x K and 1x R into
the gap. String 2x K into the central gap.
Then string 1x R, 1x K and 1x R into the last
gap. After threading the line through the outer
K, string 1x R. Thread the line through the K
and R from Steps 6 and 5. Return to the outer
protruding K from Step 7.

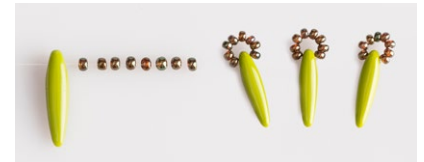

Step 8:
Thread the line through the second hole
of the K. String 1x K and 2x R into the gap.
Use the „square“ stitch to sew 1x K under
each of the two central K. Add 1x R to
the central gap and 2x R and 1x K to
the third gap. Thread the line all the way
through to the centre of the K and R from
Steps 7 and 6. Return to the edge of Step 8.

Step 9:
Thread the line through the second hole.
String 3x R into the gap and 6x R into
the central gap. Thread the line through
them one more time and then through
the connecting 2x R again. String 3x R into
the third gap. Thread the through
the second hole of the outer K. Sew it in.

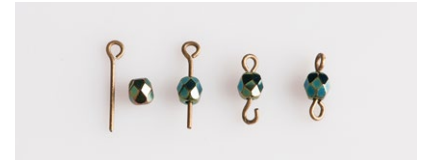

Step 10:
String 1x T and 8x R. Thread the line
through them one more time. Tie the line
off and hide it. Do this 3x.

Step 11:
String a metal tube onto an eye pin.
The wire should protrude by about 1 cm.
Grasp the pin between the points
of the needle nose pliers. Twist it around
the point. Slightly twist it back at the edge
of the tube, so that the loop is centrally
located. Do this 3x.

Step 12:
Link 1x FPB onto an eye pin.

Step 13:
Create the pendants. Open a 5mm ring.
Add the rocaillon loop with the T and
the linked eye with the tube. Close the ring.
Once again use an open 5 mm ring for
the outer pendants. Add an R at the edge
of the top part of the earring and the linked
eye with the tube. Close it. Add the partially
opened eye next to the linked eye with
the tube. Slightly open the second eye
next to the FPB. String it onto the central rocaillon
loop and close it.
